

Virtual school of Immunology 2024

February 26th (16:30-18:00)

Lecture: Genome Diversification and Integrity during Immune Responses

Prof Michela Di Virgilio (Max Delbrück Center for Molecular Medicine - Berlin, Germany)

Technology Lecture: CAR T cells for solid tumors

Dr. Michael Saitakis (Mnemo Therapeutics - Paris, France)

February 27th (16:30-18:00)

Lecture: Immune surveillance of the liver

Prof Matteo Iannacone (Università Vita-Salute San Raffaele - Milan, Italy)

Technology Lecture: Characterizing tissue heterogeneity and local immunity through Spatial Transcriptomics

Dr. Anna Pascual (National Centre for Genomic Analysis - Barcelona, Spain)

February 28th (16:30-18:00)

Lecture: A Discussion about the Impact of the Diet-Microbiota Axis on Physiological and Pathological Immune Responses

Prof. Nicola Gagliani (University Medical Center Hamburg-Eppendorf - Hamburg, Germany)

Technology Lecture: Spatial and single-cell metabolomics

Dr. Theodore Alexandrov (EMBL - Heidelberg, Germany)

February 29th (16:30-18:00)

Lecture: Clinical trials: navigating the path to medical breakthroughs

Dr. Antonio Speciale (BioCryst Pharmaceuticals - Italy)

Technology Lecture: Designing and Submitting Clinical Trials on Biological Samples

Dr. Silvia Ferrara (Fondazione Toscana Life Sciences - Siena, Italy)

March 1st (16:30-18:30)

Career Development Webinar: Me & my Supervisor

Dr. Mariam Fishere (Scienza Berlin - Berlin, Germany)
