

# Wednesday, October 1

9:30-10:30 **Registration and welcome remarks**

## Opening lectures

10:40-11:20 **Rino Rappuoli - Biotechnopolo di Siena Foundation-**  
Antibody immunotherapy; vaccines.

11:20-12:00 **Davide Corti -Humabs Biomed SA, a subsidiary of Vir  
Biotechnology, Bellinzona-**  
Antibody immunotherapy.

12:00-13:30 **Lunch**

## Session 1

14:30-14:00 **Carole Devaux - Luxembourg Institute of Health-**  
HIV treatments; antimicrobial resistance.

14:00-14:20 **Selected abstract for one oral presentation 20'**

14:20-14:50 **Fabio Bagnoli -GSK-**  
Antibody immunotherapy; vaccines.

14:50-15:10 **Selected abstract for one oral presentation 20'**

15:10-15:50 **Alberto Mantovani -Humanitas, Milano-**  
Humoral innate immunity.

15:50-16:10 **Selected abstract for one oral presentation 20'**

16:10-16:30 **Break**

16:30-17:10 **Felix Rey -Institute Pasteur, Paris-**  
A common antibody mechanism to block class II virus entry and plasmodium transmission.

17:10-17:50 **Luca Varani -IRB, Bellinzona-**  
Antibodies engineering.

**Informal, standing dinner (Italian Pizza and drinks)**

## Thursday, October 2

### Session 2

- 9:00-9:30 **Registration**
- 9:30-10:00 **Valeria Paula Martinez - Administracion Nacional de Laboratorios e Institutos de Salud Dr. C. G. Malbran, Buenos Aires-**  
Hantaviruses.
- 10:00-10:20 **Selected abstract for one oral presentation 20'**
- 10:20-10:40 **Break**
- 10:40-11:20 **Federica Sallusto -IRB, Bellinzona- TBC**  
T-cells response; antibody immunotherapy
- 11:20-11:40 **Selected abstract for one oral presentation 20'**
- 11:40-12:20 **Sergio Abrignani – INGM; National Institute of Molecular Genetics, Milano-**  
Virus-receptor interaction.
- 12:20-14:00 **Lunch**
- 14:00-16:00 **POSTER SESSION**
- 16:00-16:20 **Break**
- 16:20-17:00 **Susan Pereira Ribeiro -Emory University, Atlanta- TBC**  
Microbiome and other factors in modulating the immune system.
- 17:00-17:30 **Cecilia Garlanda -Humanitas, Milano-**  
Humoral innate immunity
- 17:30-18:10 **John McCafferty -Maxion Therapeutics, Cambridge- TBC**  
Antibody discovery.

**Dinner**

## Friday, October 3

### Session 3

- 9:30-10:00 **Camilla Foged -University of Copenhagen-**  
Vaccine design and delivery (mRNA-LNP).
- 10:00-10:20 **Selected abstract for one oral presentation 20'**
- 10:20-10:40 **Break**
- 10:40-11:20 **Jens Schumacher -BioNTech SE- TBC**  
Vaccine design and delivery (mRNA-LNP).
- 11:10-11:40 **Naama Geva-Zatorsky -Israel Institute of Technology, Haifa-**  
Gut Microbiota
- 11:40-12:00 **Selected abstract for one oral presentation 20'**
- 12:00-13:30 **Lunch**

### Session 4

- 13:30-14:10 **Fausto Baldanti - Fondazione IRCCS Policlinico San Matteo, Pavia-**  
History of immunotherapy against infectious diseases.
- 14:10-14:30 **Selected abstract for one oral presentation 20'**
- 14:30-15:00 **Mireia Pelegrin - IRMB-INSERM, Montpellier-**  
CAR-T against SARS-CoV-2.

### Closing lecture

- 15:00-15:40 **Antonio Lanzavecchia – INGM; National Institute of Molecular Genetics, Milano- TBC**  
Antibody immunotherapy.
- 15:40-16:00 **Conclusion and remarks**
